ONALASKA, WIS. (October 26, 2017) – **Dynamic Recycling**, a leading provider of electronics recycling, IT asset disposition, data security, scrap purchasing, and for-hire logistics services, today announced that CEO Miles Harter and President Curt Greeno have been jointly selected as “2017 Rising Stars Under 40” for the 7 Rivers Region of Wisconsin, Minnesota, and Iowa. The award was given to Harter and Greeno by the River Valley Media Group and the 7 Rivers Alliance at the Pettibone Boat Club in La Crosse, Wis., on October 18, 2017. The Rising Star Under 40 awards were presented to 24 community leaders in the 7 Rivers Region, selected from dozens of peer nominations recognizing their exemplary work ethic, performance, and commitment and dedication to their community.

Partially owned by Harter and Greeno, Dynamic Recycling was founded 10 years ago on a culture of integrity, excellence through innovation, self-discipline, service, humility, and fun. This award honors Harter and Greeno for demonstrating these six core values through their leadership skills, and through the Dynamic Recycling mission of empowering individuals to better themselves, their families, and others.

Harter and Greeno’s strong commitment to the 7 Rivers Region has resulted in the creation of hundreds of jobs and unique opportunities for professionals in the area, while regularly giving back to the community through donations, free collection events, and volunteering. Their dedication has also propelled significant future growth for Dynamic Recycling, with a 140,000 square-foot expansion to its Onalaska headquarters scheduled for completion in early 2018, which is expected to add 150 more jobs.

“I feel honored to have received this vote of confidence from our team and the community,” said Miles Harter, CEO, Dynamic Recycling. Curt Greeno and I are only two people, and we appreciate the efforts of our team members. They make success a reality.”

“I truly view this as a team award,” adds Dynamic Recycling President Curt Greeno. “As we celebrate our tenth anniversary this year, we recognize that it’s the hard work of each and every one of our team members that has gotten Dynamic Recycling where it is today.”
