FOR IMMEDIATE RELEASE

DYNAMIC LIFECYCLE INNOVATIONS ACQUIRES INTANGIBLE ASSETS OF ECS REFINING

Company offers immediate solutions to fulfill ECS customers' ITAD, electronics recycling, data security, and logistics needs

ONALASKA, WIS. (August 14, 2018) – Dynamic Lifecycle Innovations, a full-service electronics and materials lifecycle management corporation providing solutions for electronics recycling, IT asset disposition (ITAD), legislative compliance, product refurbishment, remarketing and resale, metals recovery, and data security, today announced it has been awarded by the courts the official approval to acquire certain IT asset inventory and intangible assets of ECS Refining, Inc. The sale was authorized under bankruptcy court proceedings and does not transfer to Dynamic Lifecycle Innovations (formerly Dynamic Recycling) any liabilities or obligations of ECS Refining, which filed for Chapter 11 bankruptcy in late April 2018 and closed at the end of June 2018.

Under the sale agreement, Dynamic will purchase ECS' customer and vendor data, software access rights, business name, Web sites, and asset management services (AMS) equipment inventories in its Stockton, California; Mesquite, Texas; and Columbus, Ohio locations.

"Prior to its recent bankruptcy issues, ECS had built a solid brand and reputation," says Miles Harter, Dynamic Lifecycle Innovations CEO. "Dynamic is extremely passionate about doing things right for our clients. We are excited to provide ECS customers with reputable, customized, secure, and cost effective solutions for all stages of the IT lifecycle through our vertical integration, greater breadth and depth of services, and in-house logistics."

Dynamic Lifecycle Innovations also offers ECS customers pick-up services for end-of-life solar panels in need of disposal due to damages from weather, shipping, or installation. This includes solar PV panels of all types, inverters, and broken and/or salvaged units. As with any material Dynamic accepts, the company guarantees that clients' solar panels will be properly recycled to their fullest extent and never disposed of in a landfill, in full compliance with all local, state, and federal rules and regulations.

Dynamic will proactively contact all ECS clients to discuss how the company can fulfill their ITAD, electronics recycling, data security, and logistics needs. Customers are also encouraged to contact Dynamic directly at **877.781.4030** for immediate questions, comments, and service requests, including previous shipment data and current/future pick-up needs.
